

Line Maintenance

This division is responsible for maintaining and operating the entire wastewater collection system by providing preventive maintenance to existing lines, replacing lines as needed and installing new service connections and clean-outs as requested. It is also responsible for necessary repair, maintenance and expansion of the wastewater collection system including all wastewater lines, mains, manholes and service connections within the public right-of-way or easements. This division responds to wastewater related emergency calls 24 hours a day, 7 days a week.
